Read this First

The purpose of this catalogue is to help a man choose what books to read.

An all-around man will read some books out of each class in turn and remember what he reads. A weak or one sided man will dissipate his mind on mere sensational time-passers.

A book is the more interesting and valuable the more the reader knows about the author.

The book is an expression and reflection of the author, his nation and date. Through books we become acquainted with persons, experiences, nations and nature's laws of life, far more than we could by our own observations alone.

Any book is only rightly understood in connection with its author, his country, his time and circumstances. The world as a whole can best be understood through books.

STUDY THIS CATALOGUE. On the right of each author's name is his nationality and date of birth and death, except the books under nationally classified heads. Every reader might as well know who is writing for him.

This catalogue is our first attempt. It is not as well worked out or accurate as we would like to have it. But it fits here better than a perfect imitation of one not built for our place and purpose. It will be a step-

ping stone for some one else to make a better one "for here."

Our books are mainly "gift horses."

We would like to have outsiders and insiders suggest what new books would fit most helpfully into the purpose of our institution. Some time some one may do even more than suggest.

The class of each man's reading for the month, with an example, will be reported to the central office as follows;

First class;—Vocational reading and books of divisions 1, 2 and 3 in this catalogue.

Second class;—Vocational and high class novels.

Third class;—Popular magazines and light literature such as romance and adventure.

How to Use the Catalogue

In the "Contents" there is a classified list of all kinds of books. If for instance you want a detective story look under American or English Literature and find "Detective" then find the page and pick out the book you wish to borrow. When requesting a book be sure to have the number of the book correct. If you are requesting "Memoirs of Sherlock Holmes" be sure to have D-42-4 with the name of the book. All books must be ordered in this way giving the full numbers shown before each book.

General Library Rules

ASSIGNMENTS and DELIVERIES will be made only from written requests on "General Library Request Forms."

Requests will be filled out in the order received if the books are on hand. Otherwise the request will be filed in order received; and a similar book or notice explaining cause will be issued.

HOW TO GET A BOOK OR MAGAZINE. All request forms must be neatly written with drawer's name, number and room number at the top, and the name of the author, title and number of book following.

REGULATIONS AND PENALTIES. Inmates taking books or magazines out of their rooms are subject to report and fine.

Anyone defacing or tearing or losing a library book or magazine shall lose his library privilege for a period of thirty days and shall also be reported to the Captain for destroying state property. The inmate to whom a book is issued shall be held responsible for the book so issued, until it is returned to the library.

Books will not be issued to other persons, than those whose names are signed to the request forms.
